

TOP DENTISTS 2020

Until there is a serious issue with our teeth or gums, and the pain becomes impossible to ignore, dental health can sometimes be an afterthought. However, whether you're seeking routine care, or treatment for something more immediately pressing you want to know your dental practitioner is not simply qualified but one of the best.

Our annual Top Dentist Listing is intended to be a resource in this regard. Professional Research Services, our third-party partner, surveys local dentists for their opinion about who among them deserves to be recognized as the best of the best. Only those dentists surpassing the PRS minimum vote threshold and possessing a current license and unblemished record are honored as Pasadena Magazine's Top Dentists.
